NOTE: THE CLIENTS IN THIS INVESTIGATION HAVE REQUESTED CONFIDENTIALITY. SOME OF THE DATA IN THIS REPORT MAY HAVE BEEN OBSCURED TO HONOR THEIR REQUEST. THIS IN NO WAY AFFECTS THE DATA PRESENTED, OR ANY CONCLUSIONS HEREIN. NO PHOTOS OF THE INTERIOR OR THE EXTERIOR OF THE RESIDENCE HAVE BEEN INCLUDED.

HISTORY

This home is a single story brick home, constructed in about the 1950's, estimated. The home is occupied by a couple with 3 younger children. The current clients have lived in the home for several years, and its prior history is unknown.

EXPERIENCES

Activity has begun in the home only recently, after a decision to move to a larger home had been made. The majority of the activity seems to be about objects being moved and, sometimes, stacked. This happens when no one is in the area to have done the moving, and the objects are often left in illogical locations. Both the mother and the two sons seem to have a certain degree of psychic sensitivity. Both boys began to have dreams of their deceased grandfather. At times, there seems to be a feeling of unseen presence or presences.

INVESTIGATION

DATE OF INVESTIGATION: April 17th, 2015

PARTICIPANTS: BESS MAXWELL, CONNIE WILLIAMSON, AND KIRK CORMIER

EQUIPMENT: Digital Cameras, Infrared cameras and DVR system, Digital audio recorders, Ion Counters, P-SB7 Spirit Box, Infra-sound detection equipment, Digital thermometers, REM-Pod, Various EMF meters including Tri-Fields, Motion detectors including geophone and laser grid systems, and Ovilus interactive voice communications devices

INVESTIGATION: At the time and places tested, no anomalous photos were taken. No data was noted on video. Nothing unusual was detected by geophone. No high EMF fields were noted inside the home, except by appliances or electrical devices. The normal fields are not believed to be a problem, as the range is very limited.

No anomalous hot spots or cold spots were noted. No anomalous motions were noted. No standard digital EVP voices were recorded. No EVP clips were noted using the P-SB7, as an added energy source. No excessive positive ion counts were noted. No infrasound, nor standing waves of such, were detected at times of testing, in the areas tested.

AUDIO

THE MODEL P-SB7 SPIRIT BOX

This device utilizes a milli-second adjustable forward or reverse sweep technique coupled with a white noise distribution between frequency steps. This is designed to add ambient sound energy for the production of real time EVP, allowing for instant feedback in communications attempts. See item 16 in “General Parameters of the EVP Phenomenon”.

NO AUDIO WAS NOTED FROM THE P-SB7

**STANDARD EVP
NO STANDARD EVP WAS NOTED**

CONCLUSION

At the time and places tested, no anomalous photos were taken. No data was noted on video. No high EMF fields from AC current were found in any location likely to result in prolonged exposure, although there are some areas of high EMF fields from appliances and electrical devices. No anomalous hot spots or cold spots were noted. No anomalous motions were noted. No EVP voices were made of words formed from the P-SB7. No standard EVP clips by normal digital recording were noted. We feel that these experiences, by team members and family members may be indicative of an anomalous presence or presences, and that these do not seem malicious or harmful in any way, and could possibly be of deceased family members wishing to make their presence known. It is noted, that if there are presences, there seems to be a reluctance to act in the direct presence of family members or researchers. At the time of investigation, in the places tested, and by the methodology utilized, no actual scientific data was gathered to support as proof of these possible presences.

We would like to thank the clients for inviting us into their home, and for the opportunity to study the phenomena there. We would also like to thank them for their most gracious hospitality, and hope that me may be able to return there again soon.
