## Centerville, LA Private Location

## HISTORY

This beautiful property was built in 1848 and is located in Centerville, LA. The now private residence previously served as the overseer's house for the John Cary House. The current owners invited LA Spirits to conduct an investigation of the property and gave the team full access to their lovely home.

## EXPERIENCES

The owners reported hearing random knocks throughout the house. Items move on their own from one part of the house to another. In addition, the television frequently turns on and off by itself and the volume goes up and down without human interference.

# Investigators Reports

Location: Centerville, LA

Date: March 19, 2022

Investigators: Melinda, Danny, Kim, Ryan

Equipment used: Digital voice recorders, wireless video cameras, Rem pods, K 2 Meters, digital still camera, IR night vision camera, motion activated light-up balls, and of course, Boo Belle.

Prior to conducting the investigation, the team made base line sweeps for EMF in all areas. Still pictures were also taken at this time. After the walkthrough the team proceeded to set up equipment in all locations. Then, it was "lights out" for the investigation.

Several EVP sessions were done throughout the home that evening. After thoroughly reviewing hours of recordings, we found two that were relevant to our investigation.

There were a few anecdotal notes worth mentioning: Ryan put new batteries into his digital camera prior to starting the investigation. Those batteries drained completely as soon as he turned on the camera. Ryan also reported that he smelled cigar smoke on occasion. When asked, the home owners reported that they do not smoke; however, they indicated that the original caretaker was known to smoke cigars. They mentioned that the smell occasionally pops up.

## CONCLUSION

Louisiana Spirits has pioneered so many reportedly active locations in the state. By not simply going off of haunted tales, we treat any historic location as the next potential haunting. In some cases, we walk out empty-handed, other times we don't.

In regards to the aforementioned private residence, we feel activity is prevalent here and we believe that with the help of a follow-up investigation, we will be able to get more evidence!
