

INVESTIGATION SUMMARY REPORT

PRIVATE RESIDENCE
MONROE, LA.

BESS MAXWELL
CASE MANAGER
LOUISIANA SPIRITS
NORTH TEAM

NOTE: THE CLIENTS IN THIS INVESTIGATION HAVE REQUESTED CONFIDENTIALITY. SOME OF THE DATA IN THIS REPORT MAY HAVE BEEN OBSCURED TO HONOR THEIR REQUEST. THIS IN NO WAY AFFECTS THE DATA PRESENTED, OR ANY CONCLUSIONS HEREIN. NO PHOTOS OF THE INTERIOR OR THE EXTERIOR OF THE RESIDENCE HAVE BEEN INCLUDED.

HISTORY

The home was built about 1980, and served as the childhood home of one of our two current clients, a husband and wife. The wife reacquired the home and moved in about 12 years ago. The client has experienced paranormal events only in this home.

EXPERIENCES

The clients have felt their bed bumped so hard that the bed itself was actually moved. Furniture drawers in this room have been opened and closed, as if by unseen hands. During the night, noises are heard as if objects were being moved around, and as if a person or people were moving around in the room, with no one in the room, except the clients in their bed. Whispering has been heard and recorded, calling the wife's name. Anomalous footsteps are heard. Doors have been opened and closed with no one in the area. Strange figures have been observed in some rooms. The clients often feel a presence, even if a figure cannot be seen. This feeling is not one of danger, only of someone near. There is also the feeling of the bed being bumped and moved.

INVESTIGATION

DATE OF INVESTIGATION: November 21, 2015

PARTICIPANTS: BESS MAXWELL, KIRK CORMIER, KEITH MYERS, AND TRACI MYERS

EQUIPMENT: Digital Cameras, Infrared cameras and DVR system, Digital audio recorders, Ion Counters, P-SB7 Spirit Box, Infra-sound detection equipment, Digital thermometers, Various EMF meters including Tri-Fields, Motion detectors including geophone and laser grid systems, Ovilus interactive voice communications device.

INVESTIGATION: At the time and places tested, no anomalous photos were taken. No data was noted on video. Nothing unusual was detected by laser grid or geophone. No high EMF fields from AC current were found in any location likely to result in prolonged exposure. No anomalous hot spots or cold spots were noted. No anomalous motions were noted. No standard EVP voices were recorded, nine EVP clips were noted of words formed by the P-SB7.

A limited amount of data was recorded from the Ovilus device. No excessive positive ion counts were noted. No infrasound, nor standing waves of such, were detected at times of testing, in the areas of testing. No inordinate positive ion counts were noted.

PERSONAL EXPERIENCES - NONE NOTED

PART ONE

The Ovilus

Carl Jung, Swiss psychiatrist and the father of analytical psychiatry, coined the word “synchronicity”. Synchronicity - The experience of two or more events, that are apparently causally unrelated or unlikely to occur together by chance, that are observed to occur together in a meaningful manner.

This concept does not question or compete with the notion of causality. Instead, it maintains that just as events may be grouped by cause, they may also be grouped together by meaning. Since meaning is a complex mental construction, subject to both conscious and unconscious influence, not every correlation in the grouping of events by meaning needs to have an explanation of cause and effect.

NOTE: In the paranormal, there are many experiences which are noted and observed for which the laws of science, as we know and understand them at this time, cannot explain. In EVP studies, blank and sealed cassette tapes have been found to have EVP voices on them, without having been previously inserted into a recorder. The actual method of the sending of EVP voices remains unknown. Television sets, while turned off, have had faces of the deceased plainly visible, as if the set were on. Telephone calls with the caller having the voice and knowledge of a deceased individual have been heavily documented. Phone calls and text messages have been sent to cell phones which have no SIM card to properly receive calls, but do receive the anomalous calls. We simply do not know, at this time, exactly how these events occur or are possible.

In paranormal research, it is the reporting of these cases that is important. These and similar phenomena are reported by individuals who have never met or known each other, and live thousands of miles apart, and often hundreds of years. Yet the reports remain consistent. Case studies, in volume and over time, allow for hypotheses and theories. It is in this simple interests of reporting that this section is included.

The Ovilus is a device that intercepts EMF signals, and converts them to audio, from an internal dictionary of over 2,000 words. It is theorized that discarnate entities may be able to INFLUENCE, under some circumstances, this word selection process. It is not thought, in the majority, that these entities may exert 100% CONTROL over the word selection, and simple research and listening to the output of the device verifies this, to the normal and reasonable individual. It is also noted that coincidence may play a part in the process, with the probability of about 1 in 2,047, in getting a correct response to a direct question. It is only in the long term studies, with consistent reporting, that more exacting theories regarding coincidence versus influence may be formulated. Probability, from a math standpoint, rises sharply as valid answers are observed in larger quantity, over a brief period of time and small number of total responses. For example, the probability of getting two correct responses in a row is 1 in 4,190,209. ($1/2047 \times 1/2047$) This assumes there is only one correct response per each individual question.

The manufacturer of the Ovilus device indicates at the present time, there is insufficient data, science, and case study to indicate the Ovilus data should be evidential. This author agrees. This case study is not presented as hard evidence. It is presented so that others may have and consider its merits, or lack thereof. If no reporting is made, no theories may be formulated, or comparisons made with other reports to study correlations, if any. Each person who reads Part Three must consider this data in light of his own beliefs, or knowledge of events that are known

to have occurred to them personally. Beauty here is truly in the eye of the beholder, or its lack thereof.

SUMMARY OF INTRODUCTION - PART THREE - The data presented here on Part Three IS NOT CONSIDERED EVIDENTIAL by the manufacturer of the Ovilus device or the La. Spirits North Team. It is simply included in the interests of completeness of events, and for study/research purposes only.

PART TWO

THE MODEL P-SB7 SPIRIT BOX

This device utilizes a milli-second adjustable forward or reverse sweep technique coupled with a white noise distribution between frequency steps. This is designed to add ambient sound energy for the production of real time EVP, allowing for instant feedback in communications attempts. See item 16 in “General Parameters of the EVP Phenomenon”.

P-SB7 AUDIO DATA

BESS MAXWELL

AUDIO SESSION IN BEDROOM

CLIP ONE:

BESS MAXWELL ASKS IF AMY'S MOM IS PRESENT.

MALE VOICE: “WOMAN.”

CLIP TWO:

MALE VOICE: “HEY!”

VARIOUS INVESTIGATORS SAID “HEY”, AND “HOW ARE YOU DOING?”

MALE VOICE: “ALRIGHT!”

CLIP THREE:

MALE VOICE COMMENTS; “BROTHER.”

CLIP FOUR:

KEITH MYERS: “WHO'S MOVING THE BED?”

MALE VOICE, UNCERTAIN AS TO THE WORD “BED” OR “BEN”

CLIP FIVE:

MALE VOICE, COMMENT: “KIRK” (ONE OF THE INVESTIGATORS.)

CLIP SIX:

MALE VOICE; “GET 'EM.”

CLIP SEVEN:

BESS MAXWELL: “CAN YOU SAY ANYTHING WE CAN HEAR?”

MALE VOICE: “HEAR!”

LAST TWO CLIPS, SAME ROOM WITH THE CLIENT PRESENT

CLIP EIGHT:

MALE VOICE ONE: “MICHAEL.”

MALE VOICE TWO: “MICHAEL.”

CLIP NINE:

MALE VOICE: "HOW YA' DOIN'?"

MALE VOICE: "MATT."

STANDARD EVP AUDIO, NO INTENTIONALLY ADDED AUDIO ENERGY

NONE NOTED

CONCLUSION

At the time and places tested, no anomalous photos were taken. No data was noted on video. Nothing unusual was detected by laser grid. No high EMF fields from AC current were found in any location likely to result in prolonged exposure, although there are some areas of high EMF fields from electrical devices. No anomalous hot spots or cold spots were noted. No anomalous motions were noted. Nine EVP voices were noted, made of words formed by the P-SB7. No EVP was recorded by standard digital recording. No excessive positive ion counts were noted. No infrasound, nor standing waves of such, were detected at times of testing, in the areas of testing. The Ovilus data was limited in quantity, though we are not sufficiently familiar with the residence and family dynamics to draw any conclusions from this data. We feel that these experiences, and the positive tests received are probably indicative of an anomalous presence or presences, and that these do not seem malicious or harmful in any way.

We would like to thank the clients for inviting us into their home, and for the opportunity to study the phenomena there. We would also like to thank them for their most gracious hospitality, and hope that me may be able to return there again soon.
