HISTORY

Kurt and Phyllis Racca are proud owners of an approximate 85 year old single dwelling home in South Lake Charles. The home was purchased and moved from an area east of there known as Sweetlake, La. and placed where it sits today, 34 years ago. The property, formally a Soybean field, was developed into a Subdivision approx. 35 years ago. Since owning the home they have done an abundance of restoration and add-ons.

EXPERIENCES

The Racca family considered their home to be perfect and normal in every way until 2005 after hurricane Rita. They suddenly began to notice what appeared to be a shadow of a man walking down the hallway of their house towards what previously was the back porch, while lying in their bed at night watching television. Kurt even expressed feeling a possible presence at times as he would walk out of the bedroom door. Neither of the occupants feel threatened in any way.

CONCLUSION

Before investigation was started, one investigator drove both directions on street in front of home in order to see how vehicle headlights are seen throughout the home. After experiment was conducted, the conclusion was made that the clients are possibly experiencing one of two possibilities.

1. The shadow they witness from time to time is a residual effect, merely a replay in time, and having absolutely no malicious or harmful intent.

or

2. The shadow they witness is the result of light play from headlights of passing vehicles shining through window blinds casting shadows down the hall.

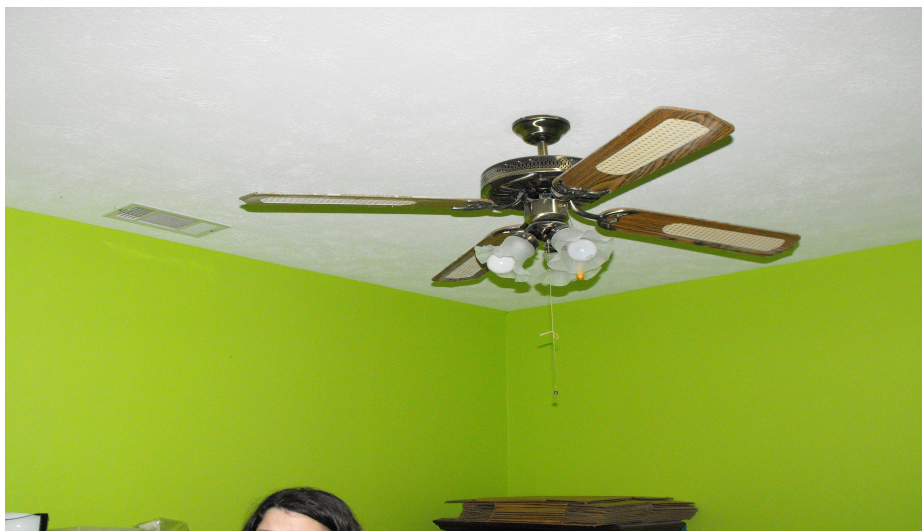

LaSpirits would like to thank the clients for inviting us into their home, and for the opportunity to study the phenomena there. We would also like to thank them for their most gracious hospitality, and hope they will call on us if any other problems arise.
