HISTORY

This is a single-family residence, a duplex, in an older neighborhood that dates to at least the 1940's. The client recently lived in another Shreveport home that was the subject of an investigation by this group (1/11/2023). The client moved out of the house due to the activity. She now believes that this new house, which she rents, is having some activity. She leaves surveillance cameras on during the day while the house is empty. She has seen, recorded by these cameras, a kitchen light turn on, heard a disembodied voice and banging, and observed strange behavior by her dog. It is the activity apparently aimed at the dog that is most worrisome to her.

INVESTIGATION

Date of Investigation: February 11, 2023

Equipment:

Digital Voice Recorders

PS-7 Spirit Box with Portal

Electro Magnetic Field (EMF) detectors: Rem-Pod, Trip Wire

Full spectrum IR video cameras

The client vacated the home for the investigation. The investigation began at approximately 8:30 pm and over the course of the investigation, included EVP, and spirit box sessions in two rooms of the home including the living room and bedroom. Video cameras were set up in the hall pointed to the bedroom. The investigation closed at approximately 11:30 pm.

Personal Experiences

None Reported

Full Spectrum Video Cameras

Nothing captured.

Model P-SB7 Spirit Box with Portal:

(All recorded in living room)

Bess asked a spirit to walk down the hall. Answer:” no”

The name “Bess” was heard several times. This was the first time.

This long unintelligible voice recorded on portal is unlike anything we have ever heard on Spirit Box.

.

The long unintelligible voice cleaned up. Still unintelligible but more distinct.

EVP's: (Electronic Voice Phenomenon)

None recorded.

EMF detectors

Nothing experienced.

Conclusion

The investigators concluded after the investigation, that the activity reported at the residence, although very credible, was not noticeably active during the investigation, except for the recordings captured by the Spirit Box/Portal. The fifteen second recording is extremely unusual. Barring a temporary malfunction of the Spirit Box, it is unexplainable.

It is very possible that the client naturally attracts spirits. Also, running video cameras in the house could also attract activity. If a spirit here is trying to get noticed by the client, interacting with her dog would be a very good way to do it. This residence warrants further investigation.
