NOTE: THE CLIENTS IN THIS INVESTIGATION HAVE REQUESTED CONFIDENTIALITY. SOME OF THE DATA IN THIS REPORT MAY HAVE BEEN OBSCURED TO HONOR THEIR REQUEST. THIS IN NO WAY AFFECTS THE DATA PRESENTED, OR ANY CONCLUSIONS HEREIN. NO IDENTIFYING PHOTOS OR VIDEOS HAVE BEEN INCLUDED.

Location and Experiences

The residence is an older frame house located in a rural area west of the Ouachita River in Sterlington, La. The residence is occupied by a father and his young daughter. Both report experiences including seeing figures, hearing footsteps, pounding on the bathroom door and slamming of that door. Also, the cabinet doors have been seen to open and contents thrown out.

INVESTIGATION

Date of Investigation: December 3, 2022

Participants: Bess Maxwell, Connie Williamson,
Kirk Cormier

Equipment: Digital Recorders, Spirit Box, Full Spectrum
GoPro Cameras, Boo Bear EMF Detector

Personal Experiences: There were no reported personal
experiences

Investigation: The investigation began around 8:30 pm after the residents left the home. Cameras were set up in the kitchen and the daughter's bedroom. An EMF sweep of the house showed no problematic high levels of EMF's. Spirit box sessions were done in the daughter's bedroom and in the bathroom/laundry room area. EVP sessions were done in the bathroom, living room, and daughter's bedroom. The client returned to the home at approximately 9:30 pm and the investigation was ended. The entire house was cleansed using Palo Santo wood smoke and holy water before leaving.

Model P-SB7 Spirit Box:

Sounds like “Bess”

Sounds like “F*ck Vernon”

Sounds like “Poltergeist”

EVP’s: No EVP’s were detected on digital recorders or cameras

Boo Bear EMF Detector: The proximity detection lights activated several times

Full Spectrum Video: Nothing captured on video or on camera audio.

Conclusions

There was not much information gathered during this short investigation to confirm or dispute the claims of paranormal activity. There were some captures on the Spirit Box but no EVP’s were recorded or personal experiences reported. It is possible that classic poltergeist activity may be being created by the high levels of emotions displayed by both

residents. The amount of evidence gathered is just too insufficient to definitively draw any conclusions.
