

INVESTIGATION SUMMARY REPORT

PRIVATE RESIDENCE
WINNSBORO, LA.

BESS MAXWELL
CASE MANAGER
LOUISIANA SPIRITS
NORTH TEAM

NOTE: THE CLIENTS IN THIS INVESTIGATION HAVE REQUESTED CONFIDENTIALITY. SOME OF THE DATA IN THIS REPORT MAY HAVE BEEN OBSCURED TO HONOR THEIR REQUEST. THIS IN NO WAY AFFECTS THE DATA PRESENTED, OR ANY CONCLUSIONS HEREIN. NO PHOTOS OF THE INTERIOR OR THE EXTERIOR OF THE RESIDENCE HAVE BEEN INCLUDED.

HISTORY

The client's dad built the home several years back, on land where the client's grandfather once lived. Client's dad built the home for retirement. He and his wife subsequently passed away. The home has always been known as busy.

EXPERIENCES

The client has experienced hearing her named called audibly and clearly. There are noises consistent with loud knocking on the walls and loud thumping noises. Footsteps are often heard when no one is in the area of the sounds. Objects have been moved, and sometimes dropped onto the floor, with no one to do so in the area.

INVESTIGATION

DATE OF INVESTIGATION: August 27th, 2016

PARTICIPANTS: BESS MAXWELL, CONNIE WILLIAMSON, AND KIRK CORMIER

EQUIPMENT: Digital Cameras, Infrared cameras and DVR system, Digital audio recorders, Ion Counters, P-SB7 Spirit Box, Infra-sound detection equipment, Digital thermometers, Various EMF meters including Tri-Fields and Rempod, Motion detectors including geophone and laser grid systems, Ovilus interactive voice communications device, and PEAR REG-1 units for the detection of anomalous human consciousness with software on Hewlett-Packard computers.

INVESTIGATION: At the time and places tested, no anomalous photos were taken. Nothing unusual was detected by laser grid or geophone. No high EMF fields from AC current were found in any location likely to result in prolonged exposure, although there are some areas of high EMF fields from wiring. No anomalous hot spots or cold spots were noted. No anomalous motions were noted. ONE standard EVP clip was recorded. No EVP clips formed by the P-SB7 were noted.

PERSONAL EXPERIENCES

BESS MAXWELL and TEA MEMBERS - While upstairs, a distinct thumping noise was heard from the downstairs area. The area was immediately searched. No one was found, nor any object noted out of place or dropped.

PART ONE - AUDIO

THE MODEL P-SB7 SPIRIT BOX

This device utilizes a milli-second adjustable forward or reverse sweep technique coupled with a white noise distribution between frequency steps. This is designed to add ambient sound energy for the production of real time EVP, allowing for instant feedback in communications attempts. See item 16 in “General Parameters of the EVP Phenomenon”.

**SIX AUDIO CLIPS WERE OBTAINED ON THE P-SB7.
ALL WERE FROM THE HALLWAY AREA.**

NONE NOTED

STANDARD EVP AUDIO, WITH NO INTENTIONALLY ADDED ENERGY SOURCE

**CLIP ONE: CONNIE WILLIAMSON: “CAN YOU OPEN THAT DOOR FOR ME?”
WHISPER: “NO.”**

CONCLUSION

At the time and places tested, no anomalous photos were taken. Nothing unusual was detected by laser grid. No high EMF fields from AC current were found in any location likely to result in prolonged exposure, although there are some areas of high EMF fields from wiring and electrical devices. No anomalous hot spots or cold spots were noted. No anomalous motions were noted. No EVP clips were made of words formed by the P-SB7. One standard EVP clips was recorded by standard digital recording. No excessive positive ion counts were noted. No infrasound, nor standing waves of such, were detected at times of testing, in the areas of testing. We feel that these experiences, and the positive tests received are probably indicative of an anomalous presence or presences, and that these do not seem malicious or harmful in any way.

We would like to thank the clients for inviting us into their home, and for the opportunity to study the phenomena there. We would also like to thank them for their most gracious hospitality, and hope that me may be able to return there again soon.
