NOTE: THE CLIENTS IN THIS INVESTIGATION HAVE REQUESTED CONFIDENTIALITY. SOME OF THE DATA IN THIS REPORT MAY HAVE BEEN OBSCURED TO HONOR THEIR REQUEST. THIS IN NO WAY AFFECTS THE DATA PRESENTED, OR ANY CONCLUSIONS HEREIN. NO IDENTIFYING PHOTOS OR VIDEOS HAVE BEEN INCLUDED.

Location and Experiences

The investigated location is a 150+ year old multi-story former office building in downtown Shreveport, LA. The building is currently being renovated and its original use changed. There have been a couple of persons who have reported hearing footsteps, doors slamming, doors locking from the inside, and even a full body apparition of a man on the stairs. The activity has caused those persons temporarily living there to move out.

INVESTIGATION

Date of Investigation: April 4, 2021

Participants: Bess Maxwell, Connie Williamson,

Kirk Cormier, Traci Myers, Keith Myers, Susan Coleman, Brad Crates, and a representative of the owner

Equipment: Digital Recorders, Spirit Box, Full Spectrum GoPro Cameras, Dowsing Rods

Personal Experiences: Traci and Keith Myers reported an unidentified sound when investigating the second floor. It was the sound like something being dragged across the floor.

Susan and Brad reported an unexplained dimming of the laser grid (fresh batteries) twice while investigating in the basement. Also in the basement, they experienced possible movement at the opposite end from where they were and a bright spot of light on the floor that could not be explained or debunked. They also heard unexplained footsteps and Susan felt dizzy at one point.

It should be noted that the Gopro camera located in the basement shut off after less than 2 minutes after recording began.

Investigation: The investigation began around 7:30 pm. Full spectrum GoPro cameras with IR illuminators were set up in three locations including a stairway, a hall and a storage area in the basement. EVP and Spirit Box sessions were carried out by all three teams of investigators, EMF readings in the building did not present anything remarkable. At the conclusion of the investigation at around 10:30 pm, the building was cleansed with sage wood smoke.

GoPro Full Spectrum Cameras

Although nothing visual was captured by the cameras, a sound of a heavy breath was recorded on the stairway by the camera microphone.

Miscellaneous sounds recorded during the investigation:

These unknown sounds were recorded during the course of the investigation. The source or cause of these sounds are unknown. They are not believed to be caused by any of the investigators.

Dowsing Rods:

While investigating on the second floor, the dowsing rods, for a short time, were behaving oddly and pointed at Connie upon a request to do so.

Conclusions

It is not difficult to believe that renovations being carried out in an old building would stir up paranormal activity. Given the reported activity, it appears that it is occurring at this location. Our investigation revealed some evidence in the way of spirit box captures and personal experiences. No evidence obtained or reported activity suggests that there is a negative presence in the building. A record of ongoing activity should be maintained by someone connected with the location in order to ascertain any patterns that may be present. Another investigation by LaSpirits could also yield further relevant informational evidence.
