We were unable to either confirm, or to disprove the presence of human or other type spirits during this investigation, at the time of testing, in the areas tested, by the testing methods utilized. We, therefore, are unable to either confirm or deny the possibility of presences in the past, in the present, or the possibility of future positive findings. We would welcome the opportunity to perform another investigation, as timing can often be critical to any type of investigation.

We would like to thank the clients for inviting us into their facility, and for the opportunity to investigate the reported activity at this location. We would also like to thank them for their most gracious hospitality, and hope that me may be able to return there again soon.
