

Investigation Summary Report

Private Residence Bethany, LA

HISTORY

In or around 1995 a suicide was committed in this house! It is known as “the haunted house” in Bethany. There have been reports of seeing an apparition, curtains opening by themselves, hearing sounds, and an overall weird feeling upstairs.

On September 27, 2008, we arrived on location around 8:00PM. After a brief tour of the house, we began setting up our equipment which consisted of 1 dvr system with 4 IR cameras, 1 FLIR thermal camera, various EMF meters, several digital voice recorders including an H4, several digital cameras, and several digital thermometers. We broke into one group of two and one group of three. We then went to two different areas of the house. After about 25 minutes we would switch until we had covered the whole house. Two of the investigators heard what sounded like footsteps coming from the living room. We tried to recreate the sound but couldn't. We wrapped up around 1:00 AM.

After going over all of evidence we collected during the investigation, we did not find anything out of the ordinary.

We would like to thank Lacey for allowing us to come in and do an investigation and for her hospitality!
