

INVESTIGATION SUMMARY REPORT

MAY 6th, 2017

PRIVATE RESIDENCE

NORTH HODGE, LA.

NOTE: THE CLIENTS IN THIS INVESTIGATION HAVE REQUESTED CONFIDENTIALITY. SOME OF THE DATA IN THIS REPORT MAY HAVE BEEN OBSCURED TO HONOR THEIR REQUEST. THIS IN NO WAY AFFECTS THE DATA PRESENTED, OR ANY CONCLUSIONS HEREIN. NO PHOTOS OF THE INTERIOR OR THE EXTERIOR OF THE RESIDENCE HAVE BEEN INCLUDED.

HISTORY

The client was raised on this property, but the original home burned down several years ago. The client and family have lived there in a mobile home placed there about 20 years ago.

EXPERIENCES

The clients hear noises unexplained, doors opening and closing, and objects have been thrown with no one in the area to have done so. A male, full-body apparition wearing a long coat and fedora has been seen.

INVESTIGATION

DATE OF INVESTIGATION: May 6, 2017

PARTICIPANTS: BESS MAXWELL, KIRK CORMIER, AND CONNIE WILLIAMSON

EQUIPMENT: Digital Cameras, Infrared cameras and DVR system, Digital audio recorders, Ion Counters, P-SB7 Spirit Box, Infra-sound detection equipment, Digital thermometers, Various EMF meters including Tri-Fields, Motion detectors including geophone and laser grid systems, Ovilus interactive voice communications device, and digital sound recorders.

INVESTIGATION: At the time and places tested, no anomalous photos were taken. No data was noted on video. Nothing unusual was detected by laser grid or geophone. No high EMF fields from AC current were found in any location likely to result in prolonged exposure, although there are some areas of high EMF fields from wiring. No anomalous hot spots or cold spots were noted. No anomalous motions were noted. No standard EVP voices were recorded. About seven recordings were noted of words formed by the P-SB7. No excessive positive ion counts were noted. No infrasound, nor standing waves of such, were detected at times of testing, in the areas of testing. No inordinate positive ion counts were noted.

PERSONAL EXPERIENCES:

In the baby's bedroom, a flashlight turned itself off and on only when asked to do so, in direct response to questions. Doors were heard vibrating, as if someone were attempting to open them. A very loud popping noise was heard, and the source was never found.

PART ONE

THE MODEL P-SB7 SPIRIT BOX

This device utilizes a milli-second adjustable forward or reverse sweep technique coupled with a white noise distribution between frequency steps. This is designed to add ambient sound energy for the production of real time EVP, allowing for instant feedback in communications attempts. See item 16 in “General Parameters of the EVP Phenomenon”.

BABY'S BEDROOM

MALE VOICE: “Robert, I'm Robert”. NOTE: A genuine name

FEMALE VOICE: “Hi, Robert.”

MALE VOICE: “Robert.”

MALE VOICE: “Robert.”

MASTER BEDROOM

TEAM MEMBER: “Did you live in the old house?”

MALE VOICE: “NO.”

LIVING ROOM

With client family present

CLIENT: “What's the baby's name?”

VOICE: “Laney.” NOTE: Correct response.

VOICE: “Robert! , Robert.”

**STANDARD EVP
NONE NOTED.**

CONCLUSION

At the time and places tested, no anomalous photos were taken. No data was noted on video. Nothing unusual was detected by laser grid or geophone. No high EMF fields from AC current were found in any location likely to result in prolonged exposure, although there are some areas of high EMF fields from wiring. No anomalous hot spots or cold spots were noted. No anomalous motions were noted. No EVP voices were recorded. About seven recordings were made of words formed by the P-SB7. No excessive positive ion counts were noted. No infrasound, nor standing waves of such, were detected at times of testing, in the areas of testing. We feel that the personal experiences, and the audio tests received are probably indicative of an anomalous presence or presences, though without harmful intent.

We would like to thank the clients for inviting us into their home, and for the opportunity to study the phenomena there. We would also like to thank them for their most gracious hospitality, and hope that me may be able to return there again soon.
