

INVESTIGATION SUMMARY REPORT

MAY 25th, 2019

PRIVATE RESIDENCE

SIMSBORO, LA.

NOTE: THE CLIENTS IN THIS INVESTIGATION HAVE REQUESTED CONFIDENTIALITY. SOME OF THE DATA IN THIS REPORT MAY HAVE BEEN OBSCURED TO HONOR THEIR REQUEST. THIS IN NO WAY AFFECTS THE DATA PRESENTED, OR ANY CONCLUSIONS HEREIN. NO PHOTOS OF THE INTERIOR OR THE EXTERIOR OF THE RESIDENCE HAVE BEEN INCLUDED.

HISTORY

The client family lives in this apartment complex. There is reported activity from an apartment upstairs, also, but this has not been investigated.

EXPERIENCES

The primary reports of unusual activities stem from two small children, a two year old, and a four year old. They often wake up screaming, and the four year old says he sees an orange monster. There is a picture that is said to fall from the wall, and then land across the room

INVESTIGATION

DATE OF INVESTIGATION: May 25, 2019

PARTICIPANTS: BESS MAXWELL, KIRK CORMIER, AND CONNIE WILLIAMSON

EQUIPMENT: Digital Cameras, Infrared cameras and DVR system, Digital audio recorders, Ion Counters, P-SB7 Spirit Box, Infra-sound detection equipment, Digital thermometers, Various EMF meters including Tri-Fields, Motion detectors including geophone and laser grid systems, Ovilus interactive voice communications device, and digital sound recorders.

INVESTIGATION: At the time and places tested, no anomalous photos were taken. No data was noted on video. Nothing unusual was detected by laser grid or geophone. No high EMF fields from AC current were found in any location likely to result in prolonged exposure, although there are some areas of high EMF fields from wiring. No anomalous hot spots or cold spots were noted. No anomalous motions were noted. One standard EVP voices was recorded. About two recordings were noted of words formed by the P-SB7.

PERSONAL EXPERIENCES:

None noted.

PART ONE

THE MODEL P-SB7 SPIRIT BOX

This device utilizes a milli-second adjustable forward or reverse sweep technique coupled with a white noise distribution between frequency steps. This is designed to add ambient sound energy for the production of real time EVP, allowing for instant feedback in communications attempts. See item 16 in “General Parameters of the EVP Phenomenon”.

DEN

A sound similar to a sneeze was heard

BESS MAXWELL: “Bless you.”

CONNIE WILLIAMSON: “I guess ghosts have allergies, too.”

VOICE: “Thank you!”

STANDARD EVP

A sound clip was recorded that did sound similar to a scream

CONCLUSION

At the time and places tested, no anomalous photos were taken. No data was noted on video. Nothing unusual was detected by laser grid or geophone. No high EMF fields from AC current were found in any location likely to result in prolonged exposure, although there are some areas of high EMF fields from wiring. No anomalous hot spots or cold spots were noted. No anomalous motions were noted. One EVP voices were recorded. About two recordings were made of words formed by the P-SB7. We feel that the audio tests received are probably indicative of an anomalous presence or presences, though without harmful intent.

We would like to thank the clients for inviting us into their home, and for the opportunity to study the phenomena there. We would also like to thank them for their most gracious hospitality, and hope that me may be able to return there again soon.
