

Investigation Summary Report

Youngsville House

Private Residence: Owners want to remain anonymous

HISTORY

Situated on the outskirts of Youngsville is a private residence. The home is approximately 14 years old. This family has lived here for 3 years. They believe that they are the third owners of the home. The wife's grandmother passed away in the home approximately 9 months ago. The activity began before the grandmother passed, but has escalated since her passing.

EXPERIENCES

The family members that we spoke to reported hearing noises, knocks, and bangs. They also hear heavy footsteps in the attic. The father has heard his name being called. The children tell their parents that their toys are being moved. The family is so terrified that they all sleep in one room. They have abandoned the rest of the house. The father installed security cameras inside the house and has captured several images of people (spirits) they do not recognize. He has captured images of a man, a least one woman, and a female child. Before the grandmother passed, she would talk about a male visitor, two little children and a monster. The family has had the home blessed and cleansed, but the activity continues.

Investigators Reports

Location: Youngsville, Louisiana

Date: July 26, 2022

Investigators: Melinda, Marci, Stacey, Donna, Michele, Nell, Lydia

Equipment used: Digital Voice Recorders, Wireless Video Cameras, Rem Pods, K-2 Meters, Digital Still Cameras, SLS Cameras, Motion Balls, Laser, Trail Cameras, Boo Buddy Bear

Attached Files

EVP's: Loud barking sound,

K2: No Hits

Rem Pods: No Hits

Motion Balls: Hits near toys

Video: No evidence

Laser: Repeatedly turned off and on without any explanation

We began our investigation with a tour of the property. We performed baseline sweeps for EMF in all areas of the house including the attic. While doing the walk through, we also took several pictures. After our initial walk through, we proceeded to set up all of the equipment throughout the house. We placed equipment in all three bedrooms and the attic. We placed motion balls in the living room near the toys. We also placed Boo Buddy Bear in the oldest son's room.

At the beginning of our investigation, everything was very quiet. Eventually, we began getting some activity. Three investigators heard singing. Unfortunately, the A/C was too loud to get a clear evp. While in the attic, the investigators heard a growl, but it was not caught on their audio recorders. One investigator reported seeing movement in the oldest son's room, but it was not caught on video.

CONCLUSION

Louisiana Spirits has investigated many reportedly active locations in the state. By not simply relying on haunted tales, we treat any location as the next potential active location. In some cases, we walk out empty-handed, other times we do not.

In regards to the Private Residence in Youngsville, we feel activity is prevalent here and we believe that with the help of a follow-up investigation, we will be able to obtain more evidence!
